THE SEVENTY-FIRST REPORT OF THE REGISTRAR-GENERAL ON THE VITAL STATISTICS FOR THE STATE OF QUEENSLAND FOR THE YEAR 1930.

Population.—The estimated population of the State on the 31st December, 1929, was 930,871 persons. On the same date a year later it was 948,195. The increase was therefore 17,324 persons, or 1.86 per cent. during the year 1930 compared with 14,182 and 1·55 per cent. in 1929. The percentage increase in 1930 was higher than for any other State or New Zealand, the various percentages being :—Queensland 1·86, New Zealand 1·36, New South Wales 0·92, Western Australia 0·92, Victoria 0·77, Tasmania 0·72, and South Australia 0·32. Since the census of 1921 the percentage of increase in the population of Queensland was second only to Western Australia, the percentages for the various States being :—Western Australia 26·41, Queensland 25·43, Australia (total) 19·14, New South Wales 19·05, New Zealand 17·99, South Australia 17·56, Victoria 16·95, and Tasmania 3·21.

The excess of births over deaths was 11,484 during 1930 and 10,179 in 1929, and the excess of arrivals over departures 5,840 and 4,003 respectively. Natural increase was therefore the chief factor contributing to the total population increase, accounting for 66.29 and 71·77 per cent. of the increase in each year respectively. Of the total Australian population Queensland contains 14·64 per cent., New South Wales 38·61 per cent., Victoria 27·65 per cent., South Australia 8.99 per cent., Western Australia 6·50 per cent., and Tasmania 3·41 per cent. The proportion of each sex in the States population was—males 53·02 per cent. and females 46·98 per cent., or approximately 89 females to every 100 males.

It is estimated that the population is distributed throughout the three divisions of the State as follows :—Southern Division 674,366, Central Division 111,356, and Northern Division 162,473. Almost half of the population of the Southern Division is resident in Brisbane, which contains 313,251 persons, or 33·04 per cent. of the total population of Queensland.

Marriages.—The number of marriages registered in 1930 was 6,199, which is a slight numerical increase of 30 compared with the previous year, the rate, however, being lower—this year 6·59 per 1,000 of population— last year 6·67. The rate is the lowest since 1905 when 6·04 was recorded. Victoria and South Australia had lower rates than Queensland—Western Australia 7·66, New South Wales 6·99, Tasmania 6·70, Queensland 6·59, Victoria 6·52, and South Australia 5·70.

The mean age at marriage in Queensland during 1930 of all husbands was 28·71 (bachelors only 27·48) and of all wives 24·70 (spinsters only 23·74). There were 89 dissolutions of marriages granted by the Courts and 122 divorcees remarried.

Births.—There were 18,939 births registered during 1930, which is an increase of 452 when compared with the number for 1929. The rate per 1,000 of population was 20·14. Last year it was 19·99, which was the lowest rate ever recorded for Queensland. The rates for each State in 1930 were :—Tasmania 22·11, Western Australia 21·98, New South Wales 20·95, Queensland 20·14, Victoria 18·56, and South Australia 17·19.

There were 952 ex-nuptial births registered representing 5·03 per cent. of the total births, the percentage in 1929 was 5·10. There were 161 children legitimated, bringing the total number of legitimations to 4,409 since the Legitimation Act became law. NOTE.—The amount actually realised bears but a small proportion to the amount sought to be recovered; but it must be borne in mind that in many cases the defendant, on a levy being made, becomes insolvent, and any property seized passes to the Official Trustee for the benefit of the Creditors, and consequently no sale by the Sheriff takes place. Many also of these writs of *fieri facias* were for large amounts, the suitors holding mortgages over and being in possession of the property seized, and were merely lodged for the purpose of obtaining the Sheriff's title for the conveyance of the interest, the purchase money being nominal.

SUMMARY OF FACTORY STATISTICS—QUEENSLAND—1927-28 TO 1930-31.

Definition of Factory.—A factory for statistical purposes is an industrial establishment in which four or more hands are employed or in which power other than hand is used.

Average Number of Persons Employed.—This information has been compiled in two ways—(*) Average number of hands over the whole year ; (†) Average number over the period of operation.

Value of Output.—This represents the selling price at the factory of all products manufactured during the year, whether sold or held in stock.

Value of Factory Production or Value Added.—This figure is arrived at by deducting from the value of output the cost of raw materials, containers, fuel, light, power, oil, water, tools replaced, and repairs to buildings and plant, and represents the fund from which salaries, wages, profits, interest, advertising, taxation, depreciation, &c., has to be met.
